

Summer Activities

Have you thought of spending some of your summer in the alps

If you have enjoyed staying in our apartment why not consider coming back in the summer.

Avoriaz, a place to dream of...

Avoriaz is a resort entirely for pedestrians, a grand adventure playground for all the family, a haven of peace for children in total safety. All the buildings wood-clad. In 2003, Avoriaz was awarded a prize for being one of the great heritage achievements of the XXth century.

...for those special moments

Avoriaz works as one big holiday club, as most of the leisure activities are situated in the actual resort centre.

And make new friends

In this great centre of freedom, kids and teenagers can easily make friends, and fill the pages of their holiday album together.

The apartment is available throughout the school holiday period at a rate of €700 a week.

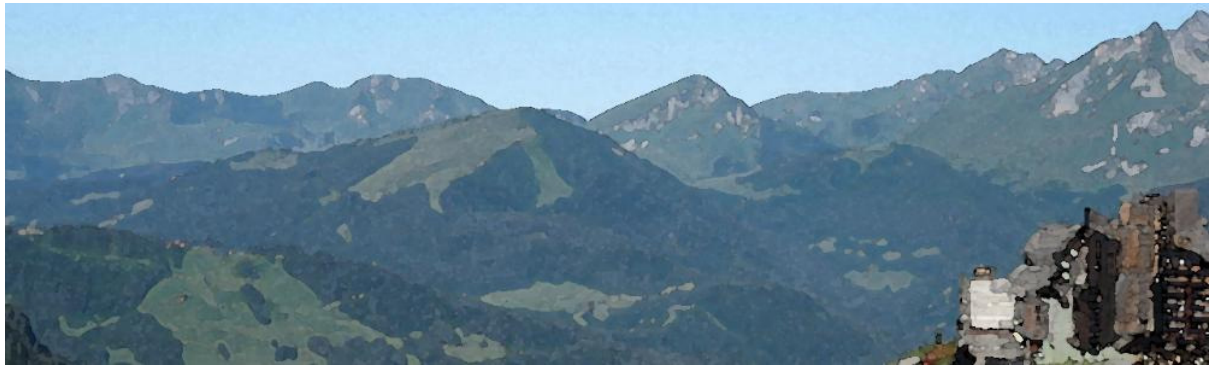

Avoriaz in the summer turns into a special holiday resort club for the whole family. The activities are endless that can be arranged in the village. Here are some of them.

Swimming (the main resort pool is free to guests staying in our apartment)
